To family and friends, Julie Lae Lindsey is a bubbly, energetic and bright 12-year old girl. She not only touches the world with her smile, but also warms the heart with her fun loving personality .

On June 17, 2005, the world came crashing in on Julie and her family when she was rushed to the hospital. Much to her parent's dismay, Julie was in the final stages of Kidney Failure.

Julie received a kidney transplant on Dcember 7th and is doing great! However, her family still needs to raise $50,000 for the kidney transplant related expenses that are becoming an enormous financial burden to the family.

Your help and prayers would be greatly appreciated by all who know and love Julie.
